I have tried adding: Foreground="White" to the Resources section of the combobox, but that did not work. Any suggestions? A: You have to either use ApplyTemplate on the ComboBox itself or create a custom control deriving from ComboBox (or any other type of user control like that you've been using) Either approach requires a style and a copy of the default

ComboBox style in that style. Q: Can not find any documents in the post request on the server side with the written code I am trying to create a post request to fetch some data and store it 570a42141b
