Best Regards (I am new to the forum) Tiffany Jan 16th, 2013 I had a similar problem but after the move and saving it did it tell me there was not enough space on the device. I then hit the 'Restore' button. Although some notes can be moved to a different drive, I have not found a way to copy them between drives (I have tried both Mac and Windows). I tried copying the files within Paragon but there was not an option to move them to a different drive. I also tried reformatting and copying again but I had the same result. I would love to know if there is another method for moving my data with my given limited options. My Device Name: Paragon P-3300 - Serial # 84437-1283
