Elden Ring, an action RPG, is an original fantasy based in the world of Kogleren. The game takes place in the Lands Between, a world separated from the human world by a murky mist. Elden Ring is the ultimate fantasy action RPG In between a legion of dangerous monsters, who are more powerful than any of the variety of inhabitants on the human side. Tarnished is one of few heroes who wields the Law, but even the Law is powerless against the strength of the monsters who threaten the world.

Elden Ring is a graphic RPG that seeks to bring the best in terms of its unique series. While taking free-form elements common to the genre, it also strived to create a hybrid RPG-visual novel that truly imitates each genre with its own style. Despite the fact that Elden Ring is a fantasy themed novel series that makes use of the hypothesis of "the last couple discovered by mankind on the Earth outside," it is an original story that takes place in the world of the book, allowing for a completely new experience when compared to the genre.

Originally, the story took place in the 1950s, to match with the assumptions of the human world. However, an unlucky incident involving a girl called Lunita resulted in creating the seers that would later help mankind. The seers saw into the future, which ended up with them being restricted within the Lands Between, and unaware of the true collapse of the world in the future. This is not a fantasy novel set outside the future, but a fantasy novel about a dramatic life to a future that has not yet occurred, while combined with a visual novel where the story

Some details about online play: View Larger The online mode has played a central role in Ys VIII: Lacrimosa of Dana, and it's been great to see this feature return in Ys VIII: Lacrimosa of Dana +. This first patch will give players a chance to try out the game's new online element. This is done by connecting to the online mode in the game's menu. One of the game's core features, that is, the combination of a large world, a rich game system, and hundreds of hours of enjoyment, is still in full effect in this series. In addition to the new online mode, new characters like Dana, who previously appeared in the Echoes of Light original game, will also be added. Additionally, this update also sees the addition of costume packs which, when added to players' characters, can be used to dress up their characters in the familiar outfits of their partner characters. The costumes of the partner characters of Dana, Linhardt, and Hendryx were added as patch 1.1.0. The costume packs currently include three new costumes for Dana, from Silica to Dawn, and two new costumes for Linhardt and two new costumes for Hendryx. And not to be ignored, this patch also adds a new game system, the online mode, which will allow players to take on adventures online with their partners. Although the online mode was first seen in titles like Dragon Quest X, Final Fantasy XIV, and Xenoblade Chronicles X, it will be a new feature in the new Ys VIII: Lacrimosa of Dana, as well as a core feature in the sequel, Ys IX: Monstrum Nox. Have you ever known a name of a creepy monster and wondered what would you do if it lived in your apartment? I mean, would you be able to stand it being in your house? To a long time fan of the franchise, this game brings a lot of new elements like: - A change in isometric view, it's now in 3D. - Online play of co-op, which allows you to play with another partner. - A new adventure, where you can meet The Seven Tribes and go on a quest of revenge bff6bb2d33

Families across Virginia have been urged to prepare for possible economic impacts as officials prepare for the arrival of Hurricane Irma which is expected to make landfall in the US mainland within the next 24 hours. As the eye of the Category 5 storm approaches the United States Virgin Islands, Irma is also forecast to cause severe weather over the coast of Florida, with a storm surge likely in that state, according to the National Hurricane Center. The Florida Keys could be under a hurricane warning as it moves north. However, forecasters are awaiting official warnings on the Virgin Islands before the full impact of Hurricane Irma is known. The strongest hurricane ever recorded in the Atlantic Ocean - Category 5 - is heading for the islands just northeast of Puerto Rico. It's expected to make landfall on the US mainland early on Wednesday - just before dawn on Tuesday - or late on Monday, as the eye of the storm is still expected to pass the Bahamas. "It's a long way off, it's still early," said Chris Manderson, a meteorologist with the National Hurricane Center. The storm has already accumulated enough energy to carry 70mph (115km/h) winds, and will continue to intensify as it gets closer to the US. "Even though it is still far offshore, the winds are much faster than at the center of a hurricane

EDIT: Just noticed that a NexWorld will be cancelled at the moment we are done reviewing it. There will be one more post by me and that's it. If you signed up, please check your NexWorld logs and also the NexWorld forum to read the cancellation notice
Rax, on 18 September 2016 - 03:17 PM, said: NexWorld was officially announced on 15th of September and I'd like to take the time and announce the cancellation of it! Since it feels a bit early to announce it, I've been attempting to make it through the review and get some feedback from US. And now I feel that it's okay to share it, because I cannot go and make anymore changes to the current review process. If you have a character that you play on NexWorld, please just reroll it and try again. Don't worry, you'll be able to get your Vouches to your old account (I've already emailed the staff to confirm it) and your saved accounts and achievements will be there. We'd like to thank all the players that helped NexWorld get this far! It has been a great ride! I'd like to also do a personal announcement to let everyone know that a half-way trailer of the NexWorld prototype is being released on 17th of September. It will have a discussion as well, so I'd like to encourage you guys to join us! That way we'll try to solve the issues that were brought up in the review process. We'd like to thank the Videogame Excellence Team for their continued support! Having Fun With Friends >> Want to make youtube channels? You can use
