Proze: Prologue is the prequel story to Proze: Zero. Proze: Prologue is a Collection of three short stories. This Collection is written by T. Kevin Elder. (These are stories that lead you from place to place.) It is also a guide to Proze. This story spans from the time after Proze: Zero to when he discovered his powers and how he learnt to control them. It also introduces the character Bryce Griffin, his creator, and explains where the story will take him after this point. Proze and Bryce, are names that refer to the Player Character from Proze: Zero. He began with nothing. And now he has everything. (These are stories that lead you from place to place.) The first tale is set in a world where Proze is no longer an impenetrable figure, but a person. Proze cannot fly. The soaring sensation is too much for him. The wind is too strong. So he stays put. Stays still. His limited range of movement restricts his choices. He has to move only within one building or one block. But as time goes by, he is able to gain more of his power. The wind no longer knocks him down, but a series of building collapses and houses, big and small, start to fall down around him. Proze has to be careful because his power has no limits. Every building and every house is a potential threat. Should he accidentally knock one down, he will not be able to bring it back. The city would then fall down. But when he is a certain distance away, he will stand still. Staring at the building or house that is about to fall. If he pushes harder, he can stop them. The building or house might not fall, but it will stop. A small and old building in a small block falls over. Buildings are being destroyed and people are in need of help. To save them he must make a choice. He must decide if he will change his power or control it. Proze: Prologue It is the morning after the events of the dream. Proze is in his

### What's new in Stan Lee's Verticus:

**Full Length Review at Patheos Yep, Wailing Heights is a cool project. You're buying the first studio album from the band on their very own label. It's available as a downloadable e-LP from Bandcamp and a DVD. Then the band shares their studio work from the last 10 years (not in chronological order) on a hard-to-get DVD. It's also available in physical format. And it's also a really cool story of personal hope, redemption and unsung strength in times of duress. The director is Kayla Simpson, the former director of Birdie at Alive Records. She's also a former employee of Kristen Foster, the legendary leader of the underground movement in music, drawing and publishing called Girl I Was A Teenage Christian Fiction. Those shows were unique not only in how they used the Bible as inspiration for their work, but how they sought to bring it out into the light. The two are in the center of these stories and that continues in Wailing Heights. The story is best told through the music. From the opening scene of slow burning conscious (when the baby is being born with all eyes closed) it booms out a huge, powerful rock anthem of spiritual awakening. It has sexual undertones that grow into a hard-edged rock take on faith. It's a mature moving from introspection and spiritual discovery to exploring motives and doubts that lead to choice and action in the search for God. The storyline starts out with Burke, a prisoner at a reformatory that is unable to have a family or get a job, and is denied basic human feelings including much needed affection. He has no hope outside of his current position, until he is confronted with a redemptive force, a living Christ. He joins with her, and as they teach him the power of the scripture and learn from each other how to find love and redemption in the story of Christ, they learn they can create a family as well as have it. They have dreams for the future they can't change. When their last chance of freedom comes up, Burke's education and spiritual growth are as important an aspect to his freedom as his keeping an eye on the walls for guards. The two leading characters, Burke and Christine, each face their own challenges in the free-world. Burke's is learning to be a parent and learn a new skill. Christine's is**
