## What's New in the?

TrueType / PostScript Converter will be able to convert TrueType fonts to PostScript. But, to do so, it requires at least an old version of the Adobe Acrobat viewer which was published before the year 2005. Input: Filename of the Adobe Illustrator file containing the TrueType font references. Output: Filename of the .eps file containing the converted PostScript font references. When finished, click cancel button to return to the main interface of the program. Important: To avoid rendering problems, try to convert fonts in pure TrueType (BOLD, Italic, etc.) to PostScript, and use OpenType (OTF) fonts (if available) for characters which are not available in TrueType. To start the conversion process, drag and drop a .ps or .eps file onto the program's main interface. To cancel the process, use the "Back" button on the main interface. If you don't know what to do or don't want to, click the "Learn More" button to see the full help screen. Now that you know what to do, read the help screen. If you still have questions, contact us through our website or follow the buttons below. How to use the "Back" button to return to the main interface. Mouse controls: Click the main interface to open the conversion process. To close the program, double-click the main interface. To cancel the conversion process, press CTRL+C. To revert the file, click "Back" button. Inline help: Click the Help button in the main interface. Click here to see the full help screen. To show this page again, press the "Back" button. To go back to the main interface, press the "Back" button. To search for help, press CTRL+F About this utility: TrueType / PostScript Converter is developed by a power user of Adobe products. It was written by me in Microsoft Visual Basic .NET 2005, and compiled with Microsoft Visual Studio 2005. Any questions, suggestions, or reports of bugs and glitches?
